

Matching games

Another rule of the card game Multipli Cat's

For 8 year olds and up.

For 1 to 4 players.

Time a game lasts : 10 to 20 min

Necessary cards : 4 to 20 pairs of cards (ex: 3x4 and 12)

Aim of the game : find a maximum of pairs of cards

Principle of the game :

Mix the chosen pairs together and place them face down on the table. Turn 2 over. If the numbers are identical, leave the cards turned up (for a single player) or take the pair (for multiple players), and turn 2 others over. Otherwise, put them back face down. Then it's the next player's turn to turn 2 cards over.

The game ends when all the pairs have been found. The winner is the player who has found the most pairs.

Variation (2 players or more) : hearing matching game

The principle is the same except that you only see the cards the other players turned over. When comes your turn, you take 2 cards and you show them to the other players who tell you what they see.
